

Mercer Area Community Planning survey

The Mercer Area Community Planning (MACP) committee is a group of individuals and organizations working together to identify the strengths of our community. We want to start a conversation on how our organizations can work together to build on those strengths.

We need input from Mercer-area residents, property owners, and visitors to help us identify where strengths are and where we should focus our community planning. Please use this survey to give us your thoughts.

1. What do you feel are the Mercer area's biggest strengths?

2. What activities interest you the most?

3. What services/facilities would you like to see available in our community?

4. How much time do you spend in the Mercer area?

If you are not a full-time resident, what would help you spend more time here?

5. What are your dreams for the Mercer area community?

Thank you for taking the time to complete this survey!
